'Earn from Home'

Opportunity

A Brilliant Plan, at the Perfect Time

Would you like a simple, exciting, lucrative business that you can run from your home, in your own time, and attract extra income?

Would you like to be an owner of the largest online eco retail supermarket in the UK?

Would you like to be able to build a business, without regard to your finances, circumstances, physical capabilities, education or background?

Would you like to be paid for doing something worthwhile – i.e., helping to save our planet?

and would you like to work alongside a well known ethical British entrepreneurial couple, and help us take this business venture **worldwide**?

“You can try and make money the old way, or you can choose to make it the new, exciting, Wikaniko way”

Wikaniko (pronounced We Can Eco) is now coming up to its 10th year of trading in the UK! The company supplies over 1000 wonderful eco friendly products via a variety of methods, which have proved to be very successful.

As a Wikaniko distributor you instantly own your very own online supermarket. There is a myriad of product ranges covering Feminine Care, Health and Wellness, Fitness, Household, Cleaning, Laundry, Baby and Child, Gifts etc. There is also a specialist Vegan section with around 200 products. There are well known brands in the shop plus Wikaniko's own ranges too.

You could have the keys to your own online retail supermarket, all set up and ready to go, literally in minutes from now

Wikaniko is no ordinary business opportunity ..

The company is run on a co operative marketing basis, whereby all the distributors that are helping to build the business have a share in the profits that are generated, apart from the income that they make themselves! This profit sharing could generate excellent further income potential for all involved.

Wikaniko is totally debt free. ALL suppliers, without exception are paid up front (pro forma) as per the company policy, which means that not one single product or ingredient enters the warehouse and workshops without it being paid for in advance. This helps the small supplier (of which we have many) to further their own business.

We champion small business owners, and we look after them

Not one single person on the HQ team is paid a salary either. Each person is a distributor in their own right, and as such they derive their income from their retailing and team building activities.

So **nobody** at Wikaniko gets a 'fat cat' salary – not even the company directors!

Within the Wikaniko business, there are several income streams. Check out which one suits you – I guarantee that you are going to be blown away ..

THE FULL DISTRIBUTOR POSITION

- First of all, you can attract customers to one of the largest online eco retail supermarkets that you have ever seen. If you have some Internet marketing experience, this is an extremely efficient, hands off method of building a regular monthly income from repeat consumables, supported by special offers, loss leader products, customer retention programs and other incentives. Don't worry if you haven't got experience – we even help you with that!
- Next, you can attract business via retail sales from the catalogues that are regularly produced, from sales to friends and acquaintances, and through demonstrating the many products at eco events and shows around the country.

- There is of course, an opportunity to build up a team of distributors and create a residual monthly income rising as those teams grow. Team building enables you to enjoy the residual income, even if you are not able to work at the business yourself.

Qualifications to receive your monthly residual income are low, and you should easily be able to qualify for your monthly commissions by obtaining products that you normally buy from the supermarket, except you will be able to obtain these at a discount from your own shop. Virtually all of your needs are covered – from teeth cleaning products, to shower or bath products, cleaning, laundry, and other household products, right through to intimate and feminine care products.

We do the work, you keep the profit.

Bearing mind that that we supply over 1000 products ranging from £1.99 to over £300, you only need a few sales per month to give you a very nice profit indeed! This position is perfect for mums with kids, carers, the physically challenged, or those who simply do not have much spare time. In fact, name one other work from home opportunity that even comes close to this opportunity you simply can't

Summary

This is an exciting opportunity, with a real global purpose at its heart – that of helping to make the world a better place. Already, we have saved millions of plastic bags from being thrown onto landfill, and we have helped to prevent rivers and waterways from more pollution. We have also helped to educate people with regard to preventing them from putting chemicals all over their bodies and hair, and on their children causing rashes and skin irritations – and that just the things we can see. We have not even scratched the surface in our quest, and we would like you to join us so that can accomplish our task much more quickly.

You can help save the world. You can be paid a rising monthly income for your contribution, and you can be truly proud of what you are doing. Furthermore, you will obtain the prestige of having a global eco venture, in any country that you can name. However, that, to us, isn't enough. You and your family are important, and you and your family need to be accommodated too.

To this end, any income that you build is bequeathable to protect your loved ones in the future. Also, when you reach a certain (and easily achievable) level you can 'lock in' any income that you make, so that it will continue to be paid even if you fall ill, or are unable to work for any reason. In our view it is better than any pension plan – for a one off payment to join the company, you could get a monthly pension for life. Not

only that, your 'pension' should continue to grow as your team increases worldwide too!

Do you have a pension? If not, you do now!

(Don't worry about working it all out – we even help you with your bookkeeping and tax return too via our MidasBooks online bookkeeping system .)

The Costs

Most Companies in the 'work from home' arena normally charge between £75 and £200. Franchises charge thousands of pounds with no guarantee of success.

Statutory Warning

It is illegal for a promoter or participant in a trading scheme to persuade anyone to make a payment by promising benefits from getting others to join a scheme. Do not be misled that high earnings are easily achieved.

"We don't focus on making an income. Instead, we make a difference, and we get paid for helping to make the world a better place. There is nothing that is more rewarding, and nothing even comes close to the satisfaction you get from it"
