

THE PROFITABLE TRICKS THAT YOU MAY HAVE OVERLOOKED REGARDING THE WIKANIKO HIGHER INCOME PLAN

A Special Report by Trevor Blake, Wikaniko

Profitable Point 1

The Wikaniko Higher Income Plan (W.H.I.P.) is simple to understand. However, there is a profitable trick or two that you may have overlooked!

As you know, you buy something at wholesale, and you sell it at retail. You get 33% commission based on the wholesale to retail markup (not 33% flat commission). This equates to about 20 – 25% in real money terms.

However, if you do more than 100CV in personal sales a month, you get a volume bonus of **5%**.

If you do more than 300 CV in a month, you get a whopping **9%** on top of the basic commission!

So now you know why dropshippers for example do a lot of sales. When they reach 300CV, which quite a few do, a whole new pile of commission trips in.

That's point 1

Profitable Point 2 is also easy to understand.

We encourage distributors to aim for at least 100CV personally every month. There are two reasons for this – first they get the **5%** extra volume bonus, but also if and when they have a team they get paid Group Volume (commission on their team) down through not one, but **3** levels!

Now for point 3

Profitable point 3 is also easy to understand but difficult to get across

...so bear with us while I explain it in very simple terms.

We have a totally unique bookkeeping service, created by the HQ team, and run by George our amazing Finance Director, who knows just about everything there is to know about running a self employed business from home.

As you are probably aware, it is a legal obligation to register as self employed if you are running any sort of opportunity at or from home, such as an mlm opportunity. Now we are horrified at the thought of all these mlm distributors in hundreds of companies all operating illegally! The silly thing is that if they did it correctly, they would be massively better off in the form of tax credits, tax refunds, and reclamation of expenses for everything they use in relation to their opportunity. It is a message that we cannot get across, because many people think that if they 'stay under the radar' they can pocket any earnings tax free. That is the stupidest mistake that any mlm distributor can

make, and it is no wonder why so many are unable to make any money from their opportunity. Subconsciously they are scared to make any real money in case the tax man finds out! It is a vicious circle of self defeat....

We have estimated that anyone who is on the fabulous Midasbooks service and doing at least their 36CV or more a month could be entitled to hundreds, if not thousands of pounds in tax refunds perhaps going back over several years! Our facebook pages, previous newsletters etc. are littered with testimonials from people who are enjoying this service, and who get hundreds, even thousands of pounds in tax refunds, plus tax credits, etc. Furthermore they are around £80 a month better off by doing things legally and properly and claiming everything that they are legally entitled to.

Do you know the craziest thing? Like everything else that we do, we do not earn or make a single penny out of the MidasBooks service. We set it up to help people like you to benefit from being part of the Wikaniko family, and we set it up so that you could hold your head up with pride, knowing that you were one of the 5% of mlm distributors in the UK running your business as a business, not as a chancer, trying to make a few quid here and there, and never succeeding.

So why not investigate it? After all there is a month's FREE trial where you can communicate with George about your personal circumstances in confidence (even the grey areas) and he will help you, without judgement or criticism. George does it all for you, INCLUDING your annual tax return. All you need to do is enter your monthly expenses online on our special program at www.midasmoney.net

I'll let you into a secret. Many people say "that's okay. I don't need this service – I've got my own accountant" or "I do my own tax return"

In virtually every case over the last 8 years, George has been able to save them even more – because he knows more about running a self employed opportunity from home than any professional that I know.

Summary

Do your 100Cv as a matter of course, to get your 5% volume bonus, and get paid 3 levels deep as a Qualified Distributor. Then teach your team how to do that as well, and WHY they should do that.

If you can, aim for 300CV because you get a massive 9% bonus on top of your commission – and then you will understand that it really is worthwhile retailing. You get 42% commission when you do. As a point of interest, a corner shop owner works night and day to make just 20% gross profit on his sales....

Get on to the free trial for MidasBooks at www.midasmoney.net and FIND OUT just how much you are missing out on. You will be staggered! You could be entitled to hundreds, perhaps thousands of pounds from what you have done over the last few years – even if you haven't made any profits from whatever company you joined. (If you bought a lot of cases of product etc., because you were persuaded or encouraged to do so, that's a big business expense for a start!

WISE UP AT WIKANIKO. DO IT LIKE THE PROFESSIONALS DO, SO YOU CAN MAKE MONEY LIKE THE PROFESSIONALS DO...AND TELL YOUR FRIENDS ABOUT THIS PHENOMENAL OPPORTUNITY
